Product Description:

Mar-Tek 276 is a tan colored powder with little odor. It is a heavy duty low foaming cleaner and contains free caustic soda for fast removal of rust and scale. It contains efficient surfactants to maximize removal of hydrophobic soils, water conditioning agents and inorganic and organic components to remove rust, paint, and scale and minimize redistribution.

Special Features:

Mar-Tek 276 will remove many types of paint and leave no pigment smut. It contains an anti-foam and requires no defoamers during normal operation. For unusual conditions where soils contain high foaming potential, additional defoaming may be necessary.

How and When to Use:

Mar-Tek 276 is used at a concentration of 2 to 4 ounces in a jet washer. Temperatures of 120° to 180F° are recommended. Cleaning time will depend on the type and amount of soil being removed. Cleaned parts are prone to flash rusting. If the parts are to be stored before further processing, do not rinse. They will not rust but will have to be rinsed eventually.

Packaging:

Mar-Tek 276 is available in 100, 250, and 500 pound fiber drums.

Product Specifications:

Physical State: Powder

Odor: Little Characteristic

Appearance: Tan Powder

pH: 12.9

Solubility in Water: Moderate

Specific Gravity: N/A

Precautions Summary:

Mar-Tek 276 contains free caustic and is very corrosive to eyes and skin. Wear proper protective clothing, rubber gloves, and face shield when using.

Eyes: Irritating. May injure eye tissue if not removed promptly. Flush eyes with cold water for at least 15 minutes while holding eyelids open and consult a physician, preferably an ophthalmologist.

Skin: Irritating. May cause damage if not removed promptly. Flush thoroughly with water until slippery feeling is gone. See a physician.

Inhalation: Use proper respiratory equipment.

Ingestion: Do not induce vomiting.

Flash Point: Nonflammable.

Notes:

Keep out of reach of children. Do not take internally. For professional use only. Please refer to the MSDS mt0276 sheet for more detailed handling instructions and specific health hazard, first aid, and precautionary information before using this product.
